

Experience

If you are looking for a solution for ring back tone, multimedia ring back and/or advertising ring back, you've come to the right place. We are among the worldwide market leaders, having provided solutions for carriers around the world, including among many others, at&t, Etisalat, mcel, MTN, Muzicall, OnePhone, Orange, Rogers, Saudi Telecom Company, Swisscom, TDC, Teliasonera, Telenor, Tele2, T-Mobile and Vodafone.

In 2009 alone, we implemented two of the worldwide biggest ring back tone solutions at different ends of the world, in the United States and Russia. In each case, we replaced existing solutions for several millions of subscribers at leading carriers in their respective region. The services include all kinds of user interfaces, WEB, WAP, SMS, USSD, IVR, etc., - of course in the local languages. We provided the complete customization, network integration and installation. Moreover, we performed the data migration and cutover. In Russia, the ring back tone system encompasses over 20 sites throughout the country and in 2010 we are adding a dozen more to deal with growth.
