

Welcome to ECT Ring Back

ECT is the best business partner to provide your customers with **ring back tones**, **advertising ring back** and **multimedia ring back products** - at a fair price. As the experts in this field, we know what is important to make your service a success: offering the right content, exploiting the best sales channels and giving your customers the user experience that makes them come back for more.

Major carriers and service providers around the world offer ring back tone and multimedia ring back services based on our flexible, reliable and highly scalable architecture.

Starting from scratch? We want to show you how to introduce your service using a cost-effective start-up solution and make it a commercial success from day one.

Need to replace your current solution? Contact us to migrate your customer base to a solution that guarantees the future success of your service. In countless swap-out situations, we have delivered some of the largest ring back tone solutions worldwide with many millions of subscribers distributed over entire continents.
